6. Directors are encouraged to contact the contest coordinator to inquire about the use of particular equipment or materials when its permissibility under this section or at specific sites may be in question.
 - a. The coordinator shall at all times have the authority to prohibit the use of any prop or equipment that presents an unreasonable or unacceptable risk of injury or harm to participants or others or potential danger to a venue or its property.

PENALTY: Disqualification – any ensembles violating any requirements shall be disqualified from that contest and must forfeit any scores, placements or awards.

Percussion Music, Spoken Word, and Visual Arts

Permission for use of copyrighted material is the responsibility of each participating ensemble. NNIA requires all participating groups to comply with copyright laws regarding performance and/ or use of arrangements of copyrighted music, visual images and other materials, as well as the use of copyrighted audio, spoken text and display of copyrighted words and images. If copyright violation is found to exist, disqualification may occur.

Each unit must provide copyright clearance (approved Permission to Arrange) for each song included in their program 3 weeks prior to their first event.

If the music is an original composition or public domain, please submit that in writing via email and no other paperwork is necessary.

In particular, all laws concerning the protection and safety of participants in youth-serving organizations must be adhered to strictly.

If NNIA receives information of any kind (oral or written, “informal” or “formal”) suggesting that misconduct has occurred that is connected in any way to individuals or activities associated with the and Participating Unit, and if the suggested misconduct meets any of the following criteria, then NNIA shall report the matter to the appropriate external authorities as may be necessary and notify WGI of the information in writing immediately to the extent local privacy laws allow:

COMPETITION AREA

1. For the purpose of interpretation, the “competition area” shall measure a minimum of sixty by ninety (60’ x 90’) feet and does not include entry ramps, hallways, bleachers or seating area. Ensembles are permitted to utilize the entire designated competition area for their performance. All performers must be in the designated competition area when performance time begins. Depending on the performance venue, NNIA will authorize additional competition area space whenever possible and include that information in the diagram (footprint) to be made available to all competing ensembles to identify the competition area. While the competition area will be increased whenever possible, all ensembles must be prepared to perform within the minimum sixty by ninety foot (60’ x 90’) area.
2. All contest sites must have a minimum of seventy by one hundred feet (70’ x 100’) to accommodate a “safety zone” of five (5) feet from any spectator seating. If no spectators are seated on the sides, then the safety zone may be measured from the left and right walls of the competition area. This will ensure the minimum sixty by ninety (60’ x 90’) foot competition area within the minimum seventy by one hundred feet (70’ x 100’) of the contest site.
3. Once performance timing begins, no performer may enter the safety zone. All equipment and props (including all sound equipment) must be grounded within the competition area except during setup and teardown. No props or equipment may be staged within the safety zone and no choreography outside the competition area, including the safety zone, is allowed. No penalties shall be assessed for broken sticks, mallets, or hardware falling over the front boundary accidentally.
4. The front boundary line shall be considered to extend the full width of the competition area and shall be clearly marked at a minimum of five (5’) feet from the first row of spectator seating.
5. The center of the front boundary line shall be marked by a taped line at the front and back of the competition area.
6. All units must use a floor covering (tarp) for their performance.
7. All floor coverings (tarps) must fit in the designated competition area at each particular contest site and cannot enter the safety zone.
8. 110 volt grounded power sources shall be available at the front of the competition area. Ensembles must provide their own extension cords. Power sources must be dedicated for ensemble use only and have no other electrical devices using designated power sources.
9. Flying of tarps (also known as “ballooning”) to clear floor at conclusion of performance is not allowed.
PENALTY: Disqualification
10. During a performance, adult or non-performing student personnel may not coach, cue, etc. any performing members.

PENALTY: One-tenth (0.1) of a point penalty up to disqualification at the discretion of the Contest Coordinator.

Equipment

1. No single, triggered, electronic sound may produce rhythmic intent. Lyrics with rhythmic intent may be triggered on a per word basis. Spoken word phrases without rhythmic intent may be performed with a single trigger. All sampled material must be triggered in real time.

PENALTY: 10 Points

2. Ensembles may manipulate their soundboard by using a remote-controlled wireless device through a self-supplied wireless network. NNIA will provide an area in or near the Effect & Visual judging area for one designated staff member to adjust the mix using wireless technology. The soundboard must remain in the competition area. Staff members may also communicate through a text-based messaging tool to a designated performer in the event the soundboard needs adjustment.
3. No motorized vehicles will be allowed. Wheelchairs for disadvantaged performers are accepted.

PENALTY: Disqualification

4. Tap and/or dancing shoes will only be allowed on a hard surface provided by the competing color guard. The hard surface will be properly padded (carpeting, foam, etc.) so as not to damage the floor. A “floor” or tarp alone is not proper padding.

PENALTY: Two (2.0) points each infraction.

5. Flags are defined as any material attached to a pike, pole, rod or staff other than an authorized weapon and used as a flag, with a minimum size of eight (8) inches by twelve (12) inches. National colors must be at least three (3) feet by five (5) feet. Flagpoles must be at least twenty-four (24) inches in length. (Curved and straight poles are acceptable; however, complete circles, squares, etc. to which material is attached are not flags. Material attached to chains, ropes or hoses are not considered flags.) The intent of this definition is to utilize a flag as a flag and not as a scenic element or a prop.
6. Rifles are defined as devices constructed so as to conform to the outward appearance of a military rifle past or present. Sights, slings, trigger, trigger housing, bolt and bolt levers are optional. Rifles must be at least twenty-four (24) inches in length.
7. Sabers/swords are defined as those weapons which are designed to be hand held for cutting, thrusting or slashing an enemy, with either a curved (saber) blade or a straight (sword) blade which may be constructed of wood, plastic, metal or any other suitable material. A cutting edge is not required. Simulated sabers/swords must have either a hand guard or a hilt and must be at least twenty-four (24) inches in length.
8. Authorized equipment may be modified by the addition of visual items, however, attaching a flag, rifle or sabre/sword to a prop does not make the prop a flag, rifle or sabre/sword – it is still a prop. Timing and Penalty judges have the right to inspect and challenge guards for authorized equipment either before or after the maximum performance time with permission of the Contest Administrator.
9. Ensembles may use any electrical device within their program deemed safe by the Contest Coordinator. The Contest Coordinator has the ultimate decision regarding safety of any device. Ensembles should consult with the Contest Coordinator prior to using any equipment not specifically defined in these rules. Ensemble will assume any liability for issues arising out of the use of said electrical devices.

(con't on next page)

Other equipment definitions:

10. No pyrotechnics, discharge of arms, pressurized canisters, dangerous materials, flammable liquids or gas will be permitted in or around the competition area. Smoke machines and/or compressed air apparatuses will not be permitted.
11. Battery operated devices using “common use” batteries (AA, AAA, AAAA, C, D, N, 9V and button cells) are allowed. Devices using dry-cell secondary “rechargeable batteries”, including cell phones, cameras, MP3 players and computers are also allowed. Car and/or truck batteries are not permitted.
12. Use of lasers and flashcubes (electrical and chemical) will not be permitted. Live animals shall not be allowed.
13. Use of powder, dirt or any other airborne substance that lingers in the competition area past the interval time of the percussion ensemble shall be strictly prohibited.
14. Use of helium, including helium-filled balloons, shall be strictly prohibited.

PENALTY: 10 Points to Disqualification.

15. For the protection of the wooden competition floors, all equipment must be properly taped or otherwise be prepared to assure that damage to the floors will not occur. All equipment tips on rifles, flagpoles, and sabres must be padded or taped. The bottom of all props, flats and scenery made of wood, metal or PVC type plastic must be padded or taped so as not to damage the floor. Soft-soled shoes need no added protection. Hard-soled shoes must be taped. Inspection will occur at all contests. Any damage to the floor that may occur (dragging the timpani, wheels on carts locking, etc.), will be the responsibility of the ensembles and is subject to penalty.

PENALTY: .1 to Disqualification at the discretion of the Timing and Penalty judge.

TIMING

All interval times will include setup, entrance, performance, exit and removal of all props, floors, and equipment.

- Once the previous unit concludes their performance, the next unit will be permitted to enter the competition area/ room and may stage personnel, equipment and/or props in any area behind and up to the interval line. Interval timing will begin when the timing and penalty judge gives a signal to cross the interval line and complete setup.
- The end of the maximum performance time is at the obvious conclusion of the show.
- Interval time will stop once personnel, equipment, and/or props have crossed the interval line depending on the contest site. Units must continue to make a deliberate exit so as not to delay the entrance of the next unit in competition.
- Please make sure to review your showday packet for site specific information. This will be in your unit Dropbox.

PENALTY: One-tenth (0.1) of a point for each 3 seconds or fraction thereof.

Any unit creating a delay in the schedule will be subject to penalty. The time schedule may be expanded at the option of the Contest Administrator, but not lessened.
